## Masu

We serve cold Sake with a glass in a square cup which is called masu . Originally, masu cups used to measure rice portions in Japan.

## Way to drink with Masu

Sip directly from the glass, keeping the masu on the table. Pick up the glass and pour the rest of the sake into the glass.

## Temperature

Drinking hot sake can actually strip the alcohol of its innately complex flavour. So, gently warm, but never heat.

## Wine Glass

We recommend wine glasses for delicate Sake. You will find more texture and complex flavour. please ask member of staff.
